Numbers of new item start with "N"; replicated items are displayed without any marks
+ items from 1994

New questions (N) = 20

Repeat questions (R) = 43

Repeat questions have question numbers for 2002/1994 in brackets.

Notes:

- 1) The 'R's, 'N's, and the 2002/1994 question numbers for the repeat questions are just meant to alert members to the fact that certain questions/items have already been asked in earlier modules. You should not retain this information in your questionnaire.**
- 2) ISSP policy on questions which you have already translated for an earlier module is that members should not tinker with wording to make slight improvements. Only real mistakes in translation should be changed. These should be clearly documented in your study monitoring report.**
- 3) All the substantive questions must be asked and asked in the order presented here. If, for any reason, you have to change question order, this should be clearly documented in your study monitoring report.**
- 4) TN = translation note; Notes on question wording should help the understanding and the translation of the question; thus a translation of the note itself is not intended.**
- 5) All the required background variables must be included in your fielding (not in a prescribed order) and must cover the information required, as outlined in the ISSP BV guidelines (Version of 2010-06-10).**
- 6) All module-specific background variables are also obligatory and should be handled as ISSP background variables with regard to question wording. However, there are some recommendations that the ISSP 2012 drafting group politely asks to follow with regard to question order.**

R 1. (2002:1a-e)**To begin, we have some questions about women.****To what extent do you agree or disagree...?****PLEASE TICK ONE BOX ON EACH LINE**
