Korean General Social Survey

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), a nationwide survey research project implemented each year. The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of National Identity, the 2003 modular topic of the International Social Survey Program (ISSP), in which 40 countries all over the world are participating currently.

Since We have selected our respondents in a way to best represent the people in this country, the result of this survey is likely to lose representativeness if you do not respond to this interview. We would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.
