This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 45 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for the comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues of Korea, the International Social Survey (ISSP) questions conducted by 45 countries around the world, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample can accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.
